

Introduction Statement for Secretary

Hi, my name is Megan Bryant and I am running for Secretary on the New England Chapter Tech Section Executive Board. I am a full-time Nuclear Medicine/CT Technologist in Rutland, Vermont. I moved to Vermont in 2019 after graduating from the Nuclear Medicine Technology program at Santa Fe College in Gainesville, Florida. My interests of serving on executive boards started in school, as I volunteered to attend two Florida NMT executive meetings and I presented my senior research project at their annual meeting. The knowledge that I gained and the connections that I made enhanced my interest to serve my professional community. I was honored to have the opportunity to attend my first New England Chapter meeting last year in 2022, and I'm looking forward to attending more. If elected, I am hoping to bring fresh perspectives to the board and to the chapter as a whole. I truly believe that finding ways to integrate new ideas, while keeping tradition and learning from experience can lead to extremely productive outcomes. One of my goals is to break down any existing barriers of communication between chapter members and the executive board by accurately recording the minutes of the meetings and ensuring that any questions or concerns are addressed regarding the minutes in a timely manner. I hope to have the opportunity to work efficiently and effectively with the other board members to make the New England Chapter Society of Nuclear Medicine and Molecular Imaging a positive and proactive professional community.
