

Hello NECTS Members,

My name is Tom Morneau CNMT RT(N). I am running for National Council Delegate of the New England Chapter (NECTS) of the SNMMI.

I have been a working technologist for many years as well as treasurer of the NECTS for the past five years (due to COVID, and lack of candidates running for the office) and have enjoyed the opportunity and responsibility of ensuring the financial accounts, taxes, and non-profit status of the chapter are in order and sufficient to cover the expenses necessary to continue our mission of providing educational opportunities for New England technologists.

I have been active at the chapter and national level for many years, as a member of various committees and I have also served as moderator of numerous sessions at SNMMI annual meetings which has allowed me to connect with technologists throughout the country and assure the NECTS is well represented at the national level.

I would like to continue my commitment to the New England Chapter as your National Council Delegate. I feel my experience, dedication to our chapter and profession as well as my desire to continue to advocate for nuclear medicine technologist at all levels would continue the excellent representation NECTS has at the national level. Thank you for your support.
