

Dear SNMMI New England Chapter Members,

I am writing to announce my candidacy for the position of Treasurer for the SNMMI New England Chapter. My name is Rachael Picchi, and I am passionate about serving our local community of nuclear medicine professionals.

I graduated from the University of Vermont in 2019 with a Bachelor of Science in Nuclear Medicine and am currently pursuing a Master in Clinical Research from MCPHS, graduating in May 2024. My professional experience includes three years as a multi-modality technologist at Massachusetts General Hospital (MGH), where I gained invaluable insight into PET/CT, Nuclear Medicine, and Nuclear Cardiology. This role allowed me to cultivate a multifaceted understanding of radiopharmaceuticals in both clinical and research settings. Presently, I serve as a Molecular Imaging and Theranostic Liaison at PharmaLogic, further contributing to the dynamic field of nuclear medicine.

Witnessing the critical contributions of technologists to local chapters while working in the industry at PharmaLogic inspired me to pursue this opportunity. As our field embraces virtual and hybrid environments, I recognize the value of fostering in-person learning, particularly for younger generations entering the profession. I am committed to promoting and facilitating engaging chapter meetings and events that enhance knowledge, collaboration, and networking among our members.

Looking forward to the upcoming Chapter meetings and hopefully meeting you all.

Sincerely,

Rachael Picchi
